“The Island Luxury Suites are amongst the most unique and special accommodation we offer,” noted Blue Palace General Manager Sotiris Kremastiotis. “The expansive outdoor terrace, combined with contemporary living space, private pool, VIP amenities and spectacular views over Mirabello Gulf provide an unsurpassed guest experience that sets a new standard in luxury.”

Drawing inspiration from the island’s natural beauty and vast historical influences, the suites are awash in a fresh, clean palette punctuated by shades of blue, billowy fabrics, contemporary furnishings and unique decor to create a spacious and peaceful place to sleep, relax and simply be.

Modern European furniture brands such as Zucchetti, Laufen and Mia Collections make up the sophisticated bathrooms and combine with the wonderful Greek brand Apivita for delightfully natural amenities, whilst Spanish brand Gandia Blasco defines the outdoor terraces and pool area with bespoke furnishings.

What’s more, the Luxury Island Suites will offer a truly VIP experience with guests enjoying access to Haven, the resort’s private beach which delivers personalized beach baskets, an elite beach service crew; exclusive breakfast in Olea; complimentary premium Wi-Fi internet access, extensive mini-bar offering and top of the range Nespresso coffee maker with complimentary capsules. From the inside out, the new Luxury Island Suites are slated to make their mark on the discerning global traveler’s ‘must-stay’ list.
